KIDO 039;Z

What's New In?

The app is compatible with the following devices: Android iPhone iPad Windows Phone 8 Kindle Fire While keeping your kids safe on the Internet, KIDO'Z also lets them have fun and enjoy the online world. KIDO'Z - Innovative gaming, unique security, safe environment - for kids! More info: Visit the KIDO'Z official website: Write to our support team: support@kidoz.com Learn more about our company: Facebook: Instagram: Twitter: Feel like a little kid again while playing games! With Kidoz, all your kids can have a space all their own that will be secure and safe from unapproved programs, games, websites, etc. Kids love it - and parents love it. Kids can play freely, while parents can be sure that no unapproved material will be accessed and no personal information will be shared. Kids can create profiles, chat, update their interests, send messages, share videos, receive presents, go to websites, etc. and parents will always know what is happening on their kid's devices. A truly innovative product that is 100% safe for kids! KIDO'Z is a software application designed specifically for helping your young children navigate in a safe environment where unapproved programs are restricted and ads that display inappropriate content are blocked. In order to use the program, you need to create an account (email address, first and last names, password) that allows you to control your child's activity and set up your kid's account (name, gender, and birth date). Interactive working environment While putting on a great emphasis on creating a secure environment where your children are exposed only to safe content, the developers did not forget about the fun part. The user interface is intuitive and displays colorful and suggestive icons, so even small children may give it a try and get used to navigating online. By default, the tool runs in a full screen mode, so you can focus solely on playing games, visiting pre-approved websites, watching videos, sending messages, and decorating a virtual room with various objects. Main features KIDO'Z comprises a large database with various items that you can choose from and constantly updates its collection. Plus, you may create a list with your favorite items. You can play or pause the current video selection, adjust the volume, seek for a position in the video streams, go to the previous or next clip from the list,
