But I'm not the one making it. It's a mod I downloaded, and it's not mine at all. It's a mod I found on the XBox version of Mt. Pimple, a web hosting site. That's where I found it. I didn't know what it was. And then I clicked. After all the movies I watch, the more I see of a girl's body, the more I always wonder what's going on in her head. That's the most important question. So I know that it's silly to just sit here and watch and just passively read and then talk about whatever bullshit it is that comes out of her mouth and saves her from being stuck in an ugly place like this. So I can't just watch. I can't just read and watch either. It makes me want to do something and someone always gets in the way and tries to stop me. Well, unless I can just indulge myself in a dream world where I get to fuck all the girls I want and that's the only thing on my mind. That's why I like to watch porn. I can focus on what's really important and not let my mind get carried away with all the things I cannot do and all the things I desire. It's no other mind like mine. No one else has the ability to be so entertained by it all.
