

"Ever wished Windows looked more like Apple or Android? With Stardock Curtains, you can transform the look of Windows right now, without spending hours in Photoshop or InDesign. It's the easiest way to personalize Windows and it's the only way to change the Windows XP or Windows 7 look. One of the most impressive new features of Stardock Curtains is that themes can be saved for future use. So when you first set up your Windows machine, you can store one of the many free themes that you find on the web, on your computer, and easily apply them the next time you use Windows. You can also customize themes yourself, to create your own specific look. Stardock Curtains comes packed with pre-defined themes, tweaks, and custom profiles, all ready to use. It's a great way to change the look of Windows with just a click, no complicated setup or graphics editing required. Whether you're looking for a fast and fluid desktop for gaming, business productivity, or just want to customize your computer for personal preference, Stardock Curtains has a theme or tweak just for you. " Here is the list of Stardock Curtains key features: Create and apply themes, tweaks, and profiles Pick from hundreds of pre-made themes and tweak your computer's appearance Save themes for future use and easily apply them Pick from any of the tweak's settings, controls, and adjust the look and feel of the operating system Test any of the pre-defined themes or create your own customized theme and tweak to your heart's content Practical features to transform your Windows experience Now the question is, does it live up to the hype? You be the judge! Installation: Extract the downloaded archive file to the desired location. If prompted, select to install the installer file. Launch the program and select Change..., then Theme Switcher. Pick one of the available pre-defined themes. Add another pre-defined theme, if you want. Pick one of the available tweaks. Pick a tweak's controls and configure the settings. Pick one of the available tweaks and configure the settings. Select your desired appearance, e.g. bright or dark. Pick one of the available custom profiles. Pick your custom profile's appearance. Pick one of the available default Windows

===== * PLUGIN: HDT ===== This plugin can be used to modify the Windows 7 taskbar to display in a different order. If you have a collection of taskbar icons, you can organize them into categories. Once you have done this, simply drag and drop them into the designated order within the taskbar If you want to completely remove a taskbar category, simply drag it to the trashcan icon. You can save your taskbar settings and see which categories are disabled. This plugin is designed to be compatible with both 32bit and 64bit versions of Windows 7. ===== * PLUGIN: HDS ===== This plugin is designed to let you customize the Windows 7 desktop by adding to the desktop and taskbars as well as placing your own items on the desktop and in the taskbars. ===== * PLUGIN: ASP ===== This plugin allows you to customize the Windows 7 window buttons. You can add, remove and re-size the window buttons. The background color of the buttons can be changed, and you can even place a image on the window buttons. ===== * PLUGIN: HGS ===== This plugin allows you to customize the Windows 7 start menu. You can place your own items on the start menu. You can add new sub-menus. You can even remove items from the start menu. You can add various styles to the start menu. ===== 2edc1e01e8

What's New in the?

Stellar Phoenix Skin Downloader - Stellar Phoenix is an add-on that enhances your Windows experience. The software adds more support for Windows 8, and allows you to customize your desktop wallpaper in a way that is native to Windows 8. User Reviews: Stardock Curtains 8/10 - By Arjen Overall: Expert review by: Redmond Price when reviewed Best regards, Stardock Curtains Review Would you like to transform your Windows experience? If your answer is yes, then Stardock Curtains might be the program for you. It is a user-friendly, smart, customizable program that will allow you to apply chromatic modifications to your system. It has a rich set of themes and design models, pre-defined customization settings that you can apply to your system. Moreover, Stardock Curtains also provides lots of in-app customization options and you can browse the program's library, find other people's themes, and view their work. With this program, you are able to create an icon and several other components and add them to your system. It will change the look of your system so that it resembles the one that is offered by the included themes. Although this program doesn't have many advanced options, it is a very good program. It is the answer for all your Windows setup and customization needs.
